

# Understanding Experiences and Insights Around Public Speaking: Let's Listen to the Children!

Study Title: Exploring perspectives of public speaking to support a canine-assisted intervention to reduce children's public speaking anxiety

Are you a student who struggles doing presentations at school?

We want to hear your ideas!

- This is a UBC research study to understand how public school students in grades 6-7 feel about giving presentations.
- Students will be asked about how presentations make them feel and what they do to prepare for them.
- Parent permission required!

**Who:** All 6th and 7th grade students in B.C. who have faced challenges around public speaking

**When:** A convenient weekday evening or weekend for you, starting February

**Time commitment:** A 30-minute CONFIDENTIAL zoom call

**Incentives:** Participating students will receive a \$35 gift card to Chapters.
